

QADRI AI

Complete User Guidebook

Version 1.0.36

Welcome to **Qadri AI**! Your advanced desktop assistant, meticulously crafted to provide intelligent, respectful, and highly capable assistance, grounded in strong Islamic principles.

What's New in Version 1.0.36?

- **Islamic Persona:** Fully integrated and locked identity as Qadri AI Team.
- **UI Improvements:** Fixed flickering issues and improved network connectivity handling.
- **Stability:** Resolved startup freeze and lockfile conflicts.
- **Features:** Added WhatsApp control interface and Developer mode overlay (Jarvis).
- **Branding:** Upgraded to 3D Custom Logo and unified theme.
- **Guidebook:** Automatic guidebook generation and distribution on install.

Core Features

- **Intelligent Chat:** Ask questions, write code, and solve problems with state-of-the-art AI models.
- **Voice Assistant:** Hands-free control with highly responsive voice recognition and Text-To-Speech.
- **Developer Mode (Jarvis):** Press `Ctrl+Shift+J` to summon the AI Coding Engineer overlay for terminal control and active workspace awareness.

- **WhatsApp Integration:** Seamlessly control your Qadri AI agent remotely from your smartphone.
- **System Control:** Open apps, close apps, and monitor your PC's health naturally using conversational commands.

About The Developer

Qadri AI is exclusively developed by the **Qadri AI Team**. The platform is brought to life under the vision and leadership of CEO & Founder **Muzamil**, ensuring an uncompromised standard of excellence in every line of code.
